

STEP UP TO THE BEST!

Step'n Stow

THE ORIGINAL MAINTENANCE-FREE STORAGE STEP OFFERS ALL THESE BENEFITS:

HAND RAIL SYSTEM (Optional on Concept 1 and EMBRACE) provides assistance in spa entry and exit. Heavy gauge clear anodized aluminum rail retains graceful appearance while providing strength normally found in large diameter institutional-looking rails. Can be installed on right side, left side or both sides of Step'n Stow.

SOLID COLOR PIGMENTING THROUGHOUT, not just a cosmetic surface treatment.

UV-STABILIZED MATERIAL will not yellow or become brittle in direct sunlight.

WATER-RESISTANT LID CLOSURE assures dry storage while allowing ventilation within the storage area.

MATCHING PLANTERS provide a visual enhancement to the total spa environment. Plant your own plants, incorporate your favorite silk arrangements or opt for these gorgeous daisy mums available in yellow or white.

LIMITED LIFETIME WARRANTY

SHOWN IN LIGHT REDWOOD WITH OPTIONAL HAND RAIL AND PLANTERS

LARGE FOOTPRINT combines with substantial step weight to ensure an extremely stable platform.

FEATURES

Simulated wood grain finish

Wood grain finish is available in a variety of colors to match or complement most maintenance-free and real wood spa cabinets.

Locking feature No one likes keeping spa chemicals out where children can get into them! Concept 1 and EMBRACE feature locking tabs, providing peace-of-mind and secure storage for chemicals and valuables. (Padlock not included.)

Spacious dry storage beneath the top step Beware of less-than-adequate imitations. If you are looking for a place to park a billfold and a small bottle of wine, a step with a molded "tray" may do. If you want **LOCKABLE** storage for chemicals, towels, robes and toys, make sure you choose Step'n Stow!

Strong as a dance floor Step'n Stow's great looks will compliment any spa. But the bottom line is that a step is meant to be stepped on, not just gazed upon. Step'n Stow not only looks great but it provides more than adequate support for nearly any weight. There is no sag or sway to Step'n Stow.
